Transmittal Letter No. 43

Kim Christiansen, Executive Director
Kansas Corporation Commission
1500 S.W. Arrowhead Road
Topeka, KS 66604-4027

Dear Ms. Christiansen,

Magellan Pipeline Company, L.P. ("MPL") is filing with the Kansas Corporation Commission, the tariff **K.C.C. No. 46** issued November 16, 2022 with a requested effective date of January 1, 2023, in order to coincide with concurrent filings with the Federal Energy Regulatory Commission under Docket #IS 23-35-000 and various other state commissions. Below is a summary of all proposed changes pursuant to filing requirements in K.A.R. 80-10-2.

K.C.C. No. 46 Item 45 – Proration of Pipeline Capacity is revised to increase the number of days, from thirty (30) to ninety (90), used to calculate inventory owners' maximum inventory balances. Item 80 – Withdrawals from Carrier's Terminal Facilities is revised to increase the number of days, from thirty (30) to ninety (90), used to calculate inventory owners' minimum allocations. The increase in days used to calculate maximums and minimums reduces variability in the system inventory balances required from inventory owners, and will assist inventory owners in planning to meet inventory balance obligations. This filing is being made to coincide with concurrent filings with the Federal Energy Regulatory Commission and various other state commissions wherein the corresponding increase to ninety (90) days is also being made. References to other tariffs have been updated to reflect the current tariff numbers where applicable. All base rates and incentive rates remain unchanged. No other changes have been made.

There is no financial impact of the proposed modification for this filing. Additionally, MPL has attached a copy of a system diagram map per K.A.R. 82-10-2 (E).

The Magellan Pipeline Company, L.P. FERC Form 6 Annual 2021 Report is on file with the commission.

MPL hereby respectfully requests that any protests, complaints, suspensions, motions, or orders which in any way affect this publication, be transmitted via facsimile concurrent with their filing/issuance to Jake Nolte at (918) 574-7036, confirmed at the telephone number shown below.

MPL has served notification of the tariff issuance on or before the issuance date to all shippers that MPL serves in Kansas who have asked to be on the tariff subscription list. Additionally, MPL will make all tariff documents available on our web site at: <http://www.magellanlp.com/WhatWeDo/LiquidPipelineTariffs.aspx>.
