- ⁽¹⁾ Adjusted EBITDA and Distributable Cash Flow are non-GAAP metrics. Please see the reconciliation of both of these metrics to net income, the nearest comparable GAAP financial measure, included in our 2021 Annual Report on Form [10-K](#).
- ⁽²⁾ Includes Magellan's share of joint venture property taxes paid.
- ⁽³⁾ Independent refined products terminals sale had not been completed as of 12-31-2021.
- ⁽⁴⁾ Board diversity changed to 2 (22%) as of May 2022.
- ⁽⁵⁾ Environmental and non-environmental NOV's received from regulatory agencies.
- ⁽⁶⁾ Represents settled penalty and fine amounts, which are counted in the year the NOV was received even if the issue was not settled until a subsequent year.
- ⁽⁷⁾ Some VCU's have been replaced with VRU's, but may be operationally maintained as emergency backup.
- ⁽⁸⁾ Emissions data from submitted regulatory-required emission inventories. 2017 increase in VOCs and PHMSA reportable release volume due to Hurricane Harvey release.
- ⁽⁹⁾ Our condensate splitter in Corpus Christi, Texas, is the only facility requiring a GHG permit.
- ⁽¹⁰⁾ GHG emissions reported as required under the U.S. EPA Mandatory Greenhouse Gas Reporting Rule.
- ⁽¹¹⁾ 2021 is our first year to calculate Total Scope 1 and Scope 2 CO₂e and includes U.S. EPA required GHG emissions reporting (see footnote 10) and voluntary emissions reporting. Totals are calculated via the equity share approach in which emissions reported are limited to assets to the extent they are owned by Magellan and exclude our two non-operated joint venture assets. Magellan follows the World Resources Institute (WRI) and the World Business Council for Sustainable Development (WBCSD) Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (GHG Protocol).
- ⁽¹²⁾ PHMSA is the acronym for Pipeline and Hazardous Materials Safety Administration.
- ⁽¹³⁾ Unusually high volume in 2021 consisted primarily of fire extinguisher foam and unrecyclable tank bottom material related to work at our Corpus Christi facility.
- ⁽¹⁴⁾ 2020 external investigation determined that the motor vehicle accident resulting in this tragic loss of life occurred due to the fault of a third party.
- ⁽¹⁵⁾ Contractor hours worked estimated per API guidance [Total Contractor Spend (capital and outside services) / \$80 = Hours Worked].
- ⁽¹⁶⁾ Per 1,000,000 employee miles driven of Magellan-owned or leased, rented, or personal vehicles conducting company business.
- ⁽¹⁷⁾ Process Safety Management/Risk Management Program as per API Recommended Practice 754.
- ⁽¹⁸⁾ Includes regular full-time and temporary limited scope employees.
