Rental Options

- 2 – 12x8" Vapor Reducers are available for shore rental - \$1,000/pair
- Shore gangway rental (supplied by MSI) available if ship's gangway is deemed unsafe*
- Deliveries will need to be made waterside; large deliveries will not be allowed to be made shore side.
- Please note that all ships arriving at Magellan Galena Park #3 Ship Dock are requested to prepare and utilize their southernmost manifold connection point; thereby positioning the vessel as far North in the slip as possible. This will aide in ensuring that the vessel is clear of the turning basin.
- All inland barges are approved for operation at Galena Park.
- Ship dock 1 is currently under construction and expected operational Q4 2018, at this time dock dimensions will be updated.
- Slops removal is permitted alongside.
- Bunkering is not permitted alongside.
- **Please note:** Potable water is not available at Magellan Galena Park.
